Incipit antidotari9 steffani arnoldi arlandi

Liber iste qui principaliter legendum assumpsimus ex multorum antidotis est compilatus, quod patet ex quibusdam medicaminibus intitulatis in se bit. cum quibusdam medicina pauli. [illegible] constantini aurea alexandrina aurea alexandri, esdra magna esdre. [illegible] medicina trotiseni [illegible] illius physici. Cum igitur ex diversis actorum intytuletur medicine constat diversos et simplices eorum fuisse inventores. Liber autem iste dicitur antidotarius ab antidotis diversis diverso modo compositis. Quidam autem compilaverunt sub brevitate medicinas, ista autem sub pluralitate magna multa de sua inventione addentes. Nos autem non omnes sed usuales medicinas lectum assignare proposuimus. Sed quia medicinarum [illegible] sunt causa quorum ethymologia non est dicta, medicine ad quos valeant et virtutes et actorum laudes. Sunt autem quedam et in quibus causis et quomodo debent dari medicine composite que in aliis et de electione [illegible] aliquorum tangendum. Medicina igitur aliqua simplex alia composita. Simplex est que talis et qualis a natura producitur vel est artificio apparata sine alterius admixtione tale ut [illegible] scamonea et multe alie in hunc modum. Cum igitur in his simplicibus major medicinarum virtutis consistat non otiose que composita causa composuit. Multiplex autem sunt principales medicinarum composi-

Quinta saporis horribilitas. Major efficacia que sunt causa, quia quedam egritudines sunt composite que sola una medicina purgari non possunt vel quia minor virtus unius augmentatur majori virtute alterius facit enim duplicata quod per se facere non poterat. Diversitas egritudinum sunt ita quod quedam est ut sunt calide quedam frigide que simul sunt in humano corpore et una autem medicina [illegible] non [illegible] effectus [illegible] non potest [illegible] discrasias [illegible] autem vi [illegible] ibi scamonea principaliter calidos [illegible] facto [illegible] propter virtutem morbi ad membra quia quibus membrum est tantus nobile et ut [illegible] quod porosum sunt [illegible] humani [illegible] consentiens autem infrigidatum [illegible] indiget dissolutiva ad sui purgationem ut porositate aperiantur et dissolvantur frigida medicina sed quia dissolutiva leniunt [illegible] vehementer [illegible] sunt aliqua stiptica in dissolutiva que debilem [illegible] confortet propter acuitatis [illegible] quia quedam medicine adeo laboriose et acute quod intrinsecus corpori inferunt violentiam [illegible] et composite non [illegible] nisi aliqua mixta que [illegible] acumine et malitia ut mastix scamonea [illegible] [illegible] et scamonea per se dari non debent ad conservationem

[illegible] diversis [illegible] in [illegible] secunde
[illegible] diversa sunt [illegible] qualitatem in
complexione quia recipit quedam calida quedam
frigida quedam sicca quedam humida [illegible] sunt
diversa quia recipit quedam sub-

quedam diuretica et alia multa variarum
virtute [illegible] diversa [illegible] ponuntur

de quibusdam [illegible] de quibusdam ʒ ii de
aliis [illegible] et sic multotiens diversificatur
pondus in aurea que aut diversa
virtute [illegible] et complexione recipiat
satis compendiose superius [illegible] quia
causis comprehendimus [illegible] de hac re
hoc plurimus et de [illegible] conscripta
diversas assignates causas sub
aliquibus illarum quas [illegible] ab [illegible]
assignata continetur. hic loco quo
non otiose [illegible] habet [illegible] potuit [illegible]
de vino calido quam de alio [illegible]
calido vel plus vel minus quam calor
de vino calido [illegible] de alio magis
frigido calido vel plus vel minus [illegible]
tamen de vino [illegible] de alio frigido
vel plus vel minus [illegible] tamen de vino

plus vel minus eadem [illegible] forma
[illegible] siccum et humidum [illegible] siccum [illegible]
calidum [illegible] siccum et frigidum [illegible]
[illegible] solet [illegible] de una esse [illegible]
[illegible] ut minus ut plus habet [illegible]
[illegible] in [illegible] quia [illegible] maior
[illegible] in minori [illegible]
[illegible] pena [illegible] est [illegible] equales
ut enim una duas [illegible] comprehendas
et compluribus [illegible] descendunt [illegible]
[illegible] maior vel minor indigestio
[illegible] fortitudo vel debilitas virtutis
[illegible] remissio qualitatis vel [illegible]
[illegible] paucitas vel [illegible]
[illegible] maiore in digestionem

plus apponitur de una quam de alia quod dicatur
quia efficacior est ad consequendum compositionis
medicine effectum propter enim aliquem
defectum in necta est dicta medicina composita
vel propter aliud id est quod species que antidotus
magis indiget in maiori quantitate
est apponenda propter virtutis debilitatem
quia enim indiget antidotum in sua
virtute debili tamen in maiori quantitate ea
recipiens ut quantitate sua suppleat quod
propter debilitatem facere non poterat
Utile tamen de quadam medicina simplici
posita in composita ut sit multiplicata
sua qualitas intensa hoc licet videre
in rosis et in aliis simplicibus rose
enim que parum frigide sunt non possunt in sua
quantitate multum infrigidare tamen competenti
tate ponuntur in multa quantitate Media
composita quibus simplicibus indiget [deleted]
speciebus sed in modica quantitate eas re
cipit tamen oportet ut scilicet recipiat
in maiori quantitate quam multarum virtutes
suppleat exemplificatum est de
tersis propter mundificationem in digestiva de
quibus est minus possibile quam minus intrare
sed in minori pondere ponenda sunt
ponenda tamen sunt quia eis medicina indiget
Propter fortitudinem virtutis quia quedam medicina simplex
maioris [illegible] virtutem tamen in modica quantitate
est apponenda modica enim eius quantitas
magis consequitur effectum propter fumositatem
et acuitatem quia quedam species adeo
sunt acute et fumose quod mortificationem
membrorum et adustionem inducunt
nimis licet sint utiles in modica tamen
quantitate sunt ponende propter necessitatem
scilicet quia ille sufficiunt tamen dicta
modicum est apponendum tamen posito de
una quam de alia simplici de causa
propter equalitatem in digestiva utraque
indiget equaliter ideo equaliter
est apponendum quedam enim talia

quibusdam frigidis componitur est eam ex
quibus compositis fit quoddam temperamentum
tum tamen cum temperamentum non habebat

fiet voita .9. cau e q menstrua
retenta ut dicit Galienus super
aphorismorum apposita quod fiet vomitus
quando stomachus calidus et laxus est
de facili recipit et male retinet
Et nota quod .4. causis non debeo dicere
menstrua vocata primum quia fortibus
stomachus eius resistet fumorum
humoralitas quod ad ipsum non sic fiat
attractio. 2a causa quia forte fames
que sunt forte retinet menstrua vel
non trahant menstrua nisi cum magna
violentia et non quia deinde. 3a
causa quia resistet calidus et
laxus quod sunt membra vocata descendit
inferius et faciat secessum. 4a causa
est quia non dicunt menstrua vomita
habet contrarium motus ad retentionem menstruorum
ut sunt spiritualia debilia ne
minus per hanc debilitatem. 4a
causa quia si menstrua sit grossus non
dicunt adversum medium et si forte
minus habet malitia reprimat
et hoc est ne descendat et fiat
secessus. Et ideo quoque causis fit
vomitus vocata secessum.

Nunc videamus quo debeant
retenta menstrua per exhibitionem menstruorum
curari. Dicendum quod duo
absolute. 1a per attractionem menstruorum
patiens non debet in aere nimis calido
propter humorum attractionem motum
via motum menstruorum habet in membris
corporis et vitet exercitium valde ut
calidum nimis frigidum ne humores congelent
et ad exhibitionem menstruorum
corporis faciendo corporis debilitatem.
2a conditio quod patiens per attractionem
menstruorum, quia quando menstrua complent
menstrua sua operationem non debet

quo modo diversa bibere, neque
cibum et potum digerendum dimi-
nua dicitur a sua operatione
primorum. 3a conditio est quod post quod
menstrua recipit operari per ea
diversa quia quando menstrua complent
sua operationem quia sic operatur
forte eadem. 4a conditio est ut
sit aialis et actualis quia corpori
non sentitur calidum. Et quod
sit expulsio sed menstrua
paulatim dilatando et dilatando quod
motus adiuvat expulsionem.
Regula 2a quod sic habet patiens ab
habentibus post actionem menstruorum
ne vomat, deinde ei dicendum
fortius odores secundum quod confortant
eos et vias respirationis et
ut spiritualia confortentur ut
actionem ad stomachum confortandum.
Et si hoc non sufficiat, stringa-
tur ma... ut non effluat
et fumos humorum ab eo stomachum
....... vel frigiatur aqua
frigida in facie sed protenus calor
ad stomachum vel ..... secundo
humores ad spiritualia et confortandum.

Nunc videndum est de preparatione
corporis menstruorum laxatione
et inde est generalis regula
quod menstrua purgantur quanti debet
tempore agenda quando malitia
reprimat non ... confortandum ad
vertatur sicut ... in
stomacho ... predictum

ea quam tangit et lenit mollis

factus humor/ ex qua dicit Mesue
tamarindi. Et alia euacuat medicina 4o
lubrificando/ quia humore mollificat
et in summo/ et per hoc magis habi
lem fit ad expellendum. Et ante
lenitiua medicina alabificatiua (?) quia
lenificatiua est v. mobilis et lubrificatiua
v. humor. Et alio modo medicina euacuat 5o

ut operari et [illegible] amici in tyriaca cum medicinis calidis admiscetur / operantur ut perveniat eos [illegible] propter dissolvere et rarefacere et cum paruit. Ideo dicitur in de simplici medicina [illegible] patet / quia sunt in [illegible]. Alia causa est ut medicina possit ad locum debitum penetrare. Ideo cum anno [illegible] et [illegible] / cum admiscetur / ut faciat eas ad [illegible] penetrare quod de se non poterant quia grossa et terrea sunt. ## Capitulum de crisi et eius significatione

Crisis est velox motus
morbi/ cum quo morbus ad mortem
vel ad salutem ducitur. Species
crisis sunt vi. Prima est in qua eger subito
mutatur/ ad bonam et perfectam
salutem. Secunda est in qua eger
subito mutatur/ ad malum vel
ad mortem. Tertia est in qua eger
usque ad principium paulatim mutatur
et occulte ad bonum et salvatur.
Quarta est in qua eger paulatim
apparenter mutatur/ ad malum et
moritur. Quinta est in qua eger
subito mutatur/ ad imperfectam
salutem/ et postea per longum
tempus paulatim mutatur/ ad
salutem. Sexta est in qua eger subito
mutatur/ ad malum/ et postea
paulatim ad mortem. Propter quod est
notandum quod illas mutationes in
quibus eger subito mutatur
ad malum vel ad bonum sunt in
egritudinibus acutis/ et ille que

non tantum [illegible] in qua eger

vel sedent vulgares a quibus et
tunc medici fugiunt. Secundo modo est
motus qui fit tantum in signis pronosticis
nec terat confusos ab instantibus et
amittit terminum. Signa iudicia bonitatis
vel malicie crisis sunt sex. Primum est
ut fiat crisis cum aliqua purgatione
mediante. Secundum aut generat mali
purgationem egritudinis faciens et
non alii. Tertium aut purget per
competentem regionem. Quartum ut fiat
crisis cum quiete vel levitate.
Quintum est ut fiat in die critica
vel appareant signa digestionis. Sextum
aliquibus horis defecerit. Tunc crisis dimi-
nuta et perfecta crisis. Si vero immutata
fuerit contrarium erit mala et mortalis.

De modis crisis [illegible] fit crisis

Quibus modis crisis fit per mutationem
humoris de uno membro ad aliud
membrum fit apta post aures aut
tollo vel pede vel per inundationem

tunc sentitur [illegible] in [illegible]
ventris sub umbilico [illegible]

et urina [illegible] adveniat [illegible]
Cum vero crisis sit per menstrua fit

Si vero [illegible] pectine sentit

Consideratis [illegible] purgationibus
[illegible]
[illegible] fit [illegible]
[illegible]
[illegible] Et [illegible]
[illegible] dicatur [illegible]
[illegible]
[illegible]
[illegible] estate uero [illegible]

in hyeme non purificandum / considerata tamen
qualitate secundum etatem et morbo hoc non congruit
propter moram sed non propter [illegible] provocatur
quem timor suffocationis / et estate quia calores
[illegible] frigidi complexionis non purgantur
[illegible] morbo / qui patiuntur calorem [illegible]
non evacuatur per vomitum propter suffocationem
In estate autem purgandum [illegible]
vero in hyeme secundum purgandum considerandum
quod tempora diei et noctis considerantur
quod habent secundum complexionem hore sunt
diei et noctis in quibus humor secundum
horas dominatur. Sanguis dominatur
a nona hora noctis usque ad tertiam
diei. Colera dominatur a tertia hora
diei usque ad nonam. Flegma
vero a nona hora diei usque ad tertiam
horam noctis. Melancolia a tertia hora noctis
usque ad nonam noctis. Si ergo fuerit
estas et voluerit purgare coleram
per vomitum / debes dare vomitum post primam
horam [illegible] diei / ut tunc fiat
[illegible] mora in hora colere et post
coleram [illegible] debes dare medicinam
si voluerit purgare perfecte [illegible]
Si voluerit purgare flegma debes dare
medicinam ante horam octavam ut hora
illa operetur medicina et educat
eam. Si vero voluerit purgare flegma
debeat patiens post horam noctis
vel [illegible] et tunc ante mediam
noctem datur medicina ut patiens
dormiat. Si voluerit cum minori
sanguine [illegible] nisi
[illegible] fuit / vel [illegible] vel aliud
repugnet / quia si aliis horis
tunc voluerit humores [illegible] magis
nocet quam confert medicina / humor enim
qui tunc dominatur obtinet et expellit
et non humor qui purgandus est.

Humorum diversitas considerandum
est quia si habundat sanguis
flegmaticus / si colera per vo-
mitum purgandus / si fuerit sanguis
in venis et tunc purgetur per
flebotomiam nisi fuerit in [illegible] temporibus

Si fuerit flegma multa purgandum est
nisi fuerit tamen [illegible] vel tamen superiores
partes / attendendum tempus et [illegible]
quod precipue tempus videndum / et [illegible]
regionem [illegible] evacuatur [illegible]
sedatur enim [illegible] et inferior [illegible]
ut [illegible] vel palatum / et [illegible]

Locus est in quo debet dari medicina
[illegible] sit [illegible] calidus sit
in estate calor [illegible] sit [illegible] frigidus
sit frigide [illegible] in regionibus [illegible]
[illegible] sint [illegible] calidus locus temporis
[illegible] aque frigide / et appone
[illegible] salices et violas / si [illegible]
frigidus faciat [illegible] sine fumo
in carbonibus / et [illegible] sit [illegible] pellibus
et calciatus / et [illegible] sit [illegible]
ne / pannis vel [illegible] ne
frigus subintret et ledat.

Medicina quandoque datur in vigiliis / quandoque
in sompnis / in vigiliis dantur
liquide medicine et leves / ut
[illegible] / et maxime quia [illegible]
[illegible] cito et leves humores [illegible]
purgare / tunc enim liquida medicina cito
dissolvatur / cito operatur / si enim
tunc dormirent / tunc calor
tunc [illegible] / medicina [illegible]
et sic [illegible] firma [illegible]
liquidi et leves humores cito et fa-
cile dissolvuntur / cito et facile
veniunt ad vias expulsionis / si ergo
dormiret possit contingere quod medicina
non debilitaretur [illegible] dissolvit
humores et attraheret / et fieret magna
humorum collectio [illegible]
[illegible] et facerent [illegible] morbos
In sompnis autem dantur duras
pillulas / et medicinas fortes / maxime
[illegible] et [illegible] humores [illegible]
partibus [illegible] purgare [illegible] / tamen
enim pillulas vel alia medicina datur

Sicut scribit Parisius in commento 2a fen. primi
Canonis corporis decursibus sanitatis conse-
rvande et curat morbos. Cum corpora humana
duabus speciebus nocumentorum sint exposita, scilicet spe-
cie una que est ab intrinseco et ab extrinseco
Et una quidem species est humiditatis radicalis
resolutio ex quo caloris. Et alia est humiditatis
scilicet putrefactio et est corruptio et ipsius
alteratio. Cum autem ipsius vite gratia non sit
igitur duarum istarum specierum addiciat extrinseca
intrinsecis. Hec causa autem nostris temporibus
apparent approximari. Hec causa sub specie nos
non videmus scilicet motus a quo tibi est potus
sompnus et vigilia sicut in autem completus
Avicenna. Et ideo propter hos non videmus al-
terare corporis humani naturalis debito suo tem-
poris ante approximatur ut scribit infra tem-
pora nunc in sanitate conservabitur. Si non tam
in decem corrumpitur. Et hoc est quod scribit Galienus
integrum talis decursus. Sicut in predictis duabus
speciebus nocumentorum predebitum istorum propter
approximationem proximas. Et per sanitas conser-
vatur et egritudo inducitur. Adeo autem ergo
de unaquaque istarum sermonem faciam dicendo
qualiter corpora humana autem conservari

auctoritate edita approbari debeant. Primo
igitur mentionem faciamus de motu.

Auctoritate conservatur quod motus antecipato

fatigatio vel agravatio, cessat. Autem ante
motus separatur et multa immunda inducit sicut

Quando si aliquis exercitium contingat post comestionem

ita quod non quiescat ad finem motus subito
procedat, sed paulatim et veniet eius [illegible]
ista licentia i. angusta autem alio ligamine
lato. Et hoc est quod scribitur ab Avicenna fen predicta in allegato
capitulo quarto. Secundum predictis scribitur
ab Avicenna capitulo decimo quando post comedere et bibere
quod motus prius post comestionem fiat debet sed non
statim sed per modicum tempus. Et in cibum in stomacho
digesto facit et cetera dormiendi propterea
si voluntas assit. Et si autem contingat
[illegible] dictam tunc bonum est quod continuus stoma-
chus usque ad appetitum quod: et iuncte [illegible]
prolonga ita quod non habeat tempus sufficiens
comedendi post cibum tunc bonum est quod valde
modicum in prandio comedat et tunc
cibus [illegible] non [illegible]
sufficit comedere. Tertius scribitur notare debes
sicut scribit Avicenna [illegible] capitulo de hoc
dimittendi exercitium quod tria sunt que [illegible]
in quantitate exercitij. Unum est calor quod dum in ipso
calore bonitas augetur. Et hoc est hora exercitandi.
Et secundum est motus quod cum motus ad hoc perveniet levis
tunc ad hoc est hora exercitij. Tertium est membrorum
dispositio per apparatum inflammationem cum dum ipse
membrorum augetur inflammatio. Tunc ad hoc est hora ex-
ercitandi. Quando autem dispositio ista minuitur incipit
et resideri vapor et liquida [illegible] sunt
tunc motus dimittendus est, quod si motus [illegible]
[illegible] est et multam egritudinem, eo quod
nimis evacuat atque debilitatem inducit
et digestionem [illegible] prohibeat. Hec de motu. De
regimine cibi et potus sequitur.

Nunc ut dictum est de alia re non na-
turali quod est cibus et potus. Est dicendum
naturaliter corpori debeant approximari ita quod
per ea sanitas conservetur. Est primo dicendum est
quod sit cibus et qualiter corpori nostro debite
debent approximari. Dicendum quod secundum scribitur ab Avicenna
capitulo [illegible] tibi quod in sanitate quis debet
conservare [illegible] ut aliquid comedat nisi de-
siderium ~~quedam~~ fuerit [illegible] et stomachus et sup-
erior intestina [illegible] evacuata
fuerit. Et [illegible] ponit, ut dicit enim quod a
in corpore [illegible] debilius et nutrimentum et cibus
superfluus quod non est digestus comiscetur.
Quando tamen est nec comestio tardetur post quam
appetitus et desiderium comedendi affuit et cetera
Et assignat Avicenna in predicto capitulo dicit
quod tollat famem stomachus prius de replet
humoribus. Habeas enim quod hac [illegible] quod ieiunium
non est [illegible] et [illegible] completa bene natura quod tunc
quod stomachus [illegible] continuo prius de repletur
humoribus [illegible] tempore [illegible] si cibus
tardetur post appetitum statim venus appetitus
destruitur, quod [illegible] in tempore [illegible] et plus stomachus
repletur malis humoribus [illegible]
Quando super [illegible] quod oportet non est ita replendus
ut in stomacho non sit locus vacuus et ut
stomachus tendatur aut multum [illegible] neque infla-
metur aut anhelitus augmentetur vel in
spissetur, sed surgat cum aliquali appetitu. Et
tempus quod assignat Avicenna in predicto
capitulo dicit quod in hoc est [illegible] quando
in hoc determinata questio est que facit stomacho
[illegible] et debet post hoc quod [illegible]
egreditur et in stomacho vacat. Debet quod surgat
cum appetitu quod ponit dicit Avicenna ibi
quod statim post horam venit comestio appe-
titus debilitatur destruitur. [illegible] quod si
alicui [illegible] contra [illegible] replere
tunc habe curam quam Avicenna ponit

Item predictus calor dicit si aliquis die superflu-
erit cibus sequenti die famelicus maneat
et propriis longo [illegible] in loco temperato in quo
nec sit calor nec frigiditas excellens. Si
non sompnus non veniat sequenti die multum [illegible]
[illegible] et parum [illegible] vini bibat et ubi
quis uti consueverit in sequenti die est remedium.
Aliud consilium ponit almansor dicit quod si accidit
aliquid ita quod homo cibis minus compleverit de cibis
[illegible] detineat [illegible] ad hoc est [illegible]
[illegible] pro vita conserva-
[illegible] et hoc [illegible] in libro
[illegible] amplior cibi et potus ad hoc [illegible]
consistens in stomacho [illegible] bonum [illegible]
[illegible] quod comedere semel in die corpora [illegible]
[illegible] bis in die constringit
corporum pigritia et gravitas. Et hoc est quod ponit
almansor in primo [illegible] quod cibo
[illegible] uti debet inequaliter et hoc est
contra quod dicit Avicenna in primo canonis. Item
melancolici indigent cibo vehementer
[illegible] et parum [illegible] colerici
vero qui [illegible] in frigidis flegmatici
[illegible] indigent cibo [illegible]
est caliditatis [illegible] sanguinei
vero bono et laudabili cibo indigent et frigidi
et humidi et parum [illegible] in [illegible]
tempore [illegible] sed debet [illegible]
declinare ad caliditatem. De temporibus autem [illegible]
quod in hyeme cibum actualiter calidum [illegible]

et frigida [illegible] et pauce quanti-
tatis et medium [illegible] et non debet [illegible]

[illegible] lactucarum [illegible]
[illegible] castrate. In vere

In vere autem competit cibus temperatus sed quod declinat
ad [illegible] Estate [illegible]
Sed de quantitate cibi assumenda dicendum quod [illegible]
Galienus de regimine sanitatis qui dicit quanti-
tas assumenda [illegible]
calor [illegible] ad [illegible]
[illegible] sufficiat. Quantitas ergo cibi assumpti
[illegible] sit [illegible] colligenda [illegible]
[illegible] quod calor possit cibum superare et
digerere. Quia si calor parvum assumptum [illegible]
consumit corpus debilitatur [illegible]

corpus et humectatur. [illegible] quantitat
[illegible] Quantitas ergo cibi [illegible] in [illegible]
nec calor [illegible] nec sompnus nec vigilia
[illegible] in corpore nec [illegible]
nec [illegible] neque debilitatem [illegible]
in quadragesima [illegible] cibum [illegible]
Sed de quantitate cibi [illegible] sicut supra dictum est
sufficienter de hoc [illegible] sanitatis

De qualitate cibi videndum est
quod cibus qui competit in regimine sanitatis
et ita per sanitatem conservandam non debet excedere in
aliqua qualitate. Quia [illegible] in caldi-
tate [illegible] sicut [illegible] alii
tempore [illegible] frigida mortifi-
cant sicut est lactuca portulata etc. Et si fue-
rint qualitatis aquose sicut sunt me-
lones [illegible] Et si fuerint venenose

gida bibere est malum quia si vehementer
nimium fuerit sed pro sufficit tamen questio et responsio
Et hoc sufficiat de aqua

Modo videamus de regimine vini. Dico quod
sapientes sapientes sibi caveant. Incipiamus
vinum bibat cum quod inebriat minus et confortat
efficiant ut post modum potentem et quoniam
ponit Almansor. Dicit enim quod hoc duo cerebro
magis faciunt nocumentum, et vinum et ad spasmum
producit. Dicit etiam quod magis nocumentum
quod vinum inducit est cerebro. Unde hoc quando
omnis bibat multum qui debile cerebrum habet
si patitur in maxime est hoc et quod dicit Albicen
causa de regimine aque. Scias et quod post Almansor
dicit nec potest eius ergo quod est post balneum nec
post plus ab eo calidum nec acutum nec post ab eo
sanitatem vinum et statim sumere. Et post quod
ibi de speciebus desperantur est tamen causa superius
et assignata. Dicit enim quod quantitas vini non est sumenda
faciliter hoc ut circa generatur extenditur speciebus et tamen assi-
gnat Albicen in predicto capitulo dicit quod ideo multum
non est sumendum ut causa speciebus generantur quia
multum vinum in quibusdam speciebus in malam
turbat colicam quibus et in aliis speciebus
in actum purgat quorum quando nocumentum ambo
et magnum sequitur autem nocumentum sed est fiunt
ut post Almansor in predicto capitulo dicit vinum ille
qui vino impletur melius est ut ad vomitum
statim se perferet. Qui vero non possit aqua
multum tepidam bibat et post vomitum balneum intret
et post dormiat. Scias etiam quod frequens ebrietas
est mala et tamen hoc assignat Albicen
dicit quod frequens ebrietas epar et cor debilitat, et apoplexi-
am corrumpit et debilitat nervos et ad minores
egritudines perducit ut est podagra artetica et tremore

et apoplexia et mortem subitaneam et cale-
rem naturalem quod extinguit senectute et tamen
inducit unde quicumque ab ebrietate frequenti ca-
veat. Scias etiam quod post Albicen quod
bonum est in ebrietate semel in mense et tamen
hoc post quod ipsos tunc virtutes animales
alleviat superflue facit et urinam provocat et
sudores superfluitates complent. Et omnia que
tamen simulitate. Item scias secundum quod Albicen post
hoc cum multa fuerit aliquando per quod tamen potest propter
et quia hic modus superior est ceteris. Non est dis-
tinctum in magis pro inebriandi. Item post
dicit quod ebrius sublevat vomitus et animas
purgat quam ad ebrietatem perducit ut plurimum
est quod plus mirum pessimi apoplexia
et alias infirmitates quas ebrietas inducit
non nisi ea vitatur in cum magna cautela est
et quod sibi in hoc ebrietate dicamus ad se
replere volunt aqua non repleatur nec re-
ducere quedat. Insuper scias quod ... non
sito inebriatur cum cerebrum est forte et ca-
et quia cerebrum malos humores ascendentes
non sustinet nec ad ipsum procet dominatur
cuius quoque calor per quod ipsum intellectum
fiat in gerium et non consumpsit. Item
autem cerebrum debile causa corrumpitur
in ebrietate. Scias etiam ut dicit Albicen in predicto
capitulo quod vinum minimum velocius inebriat et qualitas
quantitas penetrat et aqua vinum se aliciat.
Scias preterea unguentum iemalem vinum bene valet
quod omnibus potest est sumendum ut post Albicen
frigidis. Etiam scias quod vinum vetus est quasi
medicina a paucis quod conservat intrinsecus; nimium
bibitum impedit et debilitat epar et epatica
dicitur quod inducit dissenteriam in seplerorum ve-
tere per suum inflammationem propter quod facit ventris
fluxibilem unde quicumque hoc ab ipso sibi ta-
men. Scias etiam quod ponit Albicen ...

[illegible] illius qui in [illegible]
[illegible] Avicenna dicit quod [illegible]

gestionem Avicenna in [illegible] quod dormiens

Quia contra corpus fiunt multi morbi

Nunc videndum est de alia parte re-
[illegible] quae in textu completur.
Et dico primo quod scribit Albucasis [illegible]

dicit [illegible] quod [illegible] superfluitatibus [illegible]

[illegible] quia ut ponit
Almansor [illegible] quia per has evacuationes

quia sic fit [illegible] ut

cum caliditas nimia humiditati comparatur. Et ideo
fiunt p⁹ dictum ut in superioribus habitum est, quamde-
di et dixi et q̄ ponit Avicenna. Et balneo
multum tegere. Contra idem coitus et rationem multum habita
coitum quiescat quia non est naturalis super repletionem
quia prohibet digestionem fieri tunc tempus et
multis cibis et minus repletum, neque tunc balneo
egredi. Sic in balneis ut supra dicitur, neque
post vomitum solutionem, neque post fleubotomiam
tunc, neque post motum et causa est quia tunc
natura et humor simul fatigatur. Dividitur
namque illis etiam composite coitus tertius composi-
te a famelicis et tamen post Avicenna dicit
dicit q̄ coitus corporis famelici et nimis
plenis et natura et magis nocet in nimis
et magis humiditas et magis lapsus et eorum
et curationem melius neque apta coitus corporis
compositi super calefactionem ut nimis infrigida
do ut nimis exsiccatio ut humectatio.
Si ad quis suae habeant coitum etiam dicitur
dandi an quia tempus non et super calefactum
ut super in frigidam humectationem vel
pressionem ut in alio et post quod fit
a digestione et sicut circa mediam noctem
ipsum ad ascendentem ut circa habeant repletionem
in cibus non destendit de stomacho, tempus
quia apponat galligent integri et ut
coitum in coitu et q̄ nimis melius in sed
corpori si sit corpore compositi et repleto ut
humectati sicut papis deinde et in
coitu cum c̄ utilitas nutriendi, ut cum est
necessitas appellandi, sic post de appellatione
a nimia quiete et post eam coitus
coitum sed qui post ipsum sequitur proprius longe
est coitum consentit et virtutem augmentat
deinde, ponit q̄ non et q̄ aliquis coitum
si habeat dependam et appetitum ipsum
igitur q̄ non coitus compositi ut coitum
ut quando vocat ipsum ad appetitum multo
magis sicut est tempus in quo sentit gravitas

Comulit ut comparat circa posteriora et membra genitalia
sed circa testiculos. Superius super q̄ initiante coitus tempore
calido et tempore calido et regione calida multum cessit
natura. Propter ea in uno tempore et alia quod ponit Avicenna
super in vitalem debet dicit eum q̄ in cogitu q̄ magis sed sunt
si appendit atque unde quia contra illa faciat coitum
attendit in statu et ultimus in uigo caliginem, ponit legem est
bene acceptum comparat et q̄ sit post tempore comparet
inliter in uigo ubi tempus cogitus deinde
eam q̄ comparat dicens in coitu et unum agis
cum iste q̄ coitum contra ipsum tempore semit et dif
ficit ut dicit Galienus in libro. Regimen sanitatis
q̄ coitus semiat pusillanimitatem, quod q̄ melius
semiat et qui redit et super fleuma cunctat. Ideo qua
in coitum contra in coitu tunc differat in frigiditate
et debilitate. Nota ut deum est proprie. Et ideo dixit
Avicenna in historiis plus nota unum coitum super fleuma
fleumaticos sibi comparales. Et ideo multitudinem
est ad prius sufficiat haec sequitur aliud.

Nunc ad dicendum est de alia evacua-
tione q̄ sit per fleubotomiam quia sicut premissum
sanguinis. Vidi ergo q̄ non propria fare fleubotomiae
frequenter. Est tamen super potest aliquando tres de-
de iuncte et nocte expirare sanguinis dic-
tum ibi q̄ frequenter sanguinis corruptor maligni
appetitus hydropisis, febris frequenter et appetitus
destructus pulsus, spiritus destructus et ipsorum quantum
et tandem debilitas timor est et paralysis ut sed
apoplexia aggravatam vtrum debiles ab evacuatione
plus. Videtur sanguis amicus est dimittere dispositio
nis est q̄ ponit Avicenna capitulum de capitulo
de fleubotomia, q̄ fleubotomia duas habet
q̄ fit deinde, sicut habeat clarum, et habeat et
accidentia. Dicit vero est quod simile dicitur sit circa
habeant est super digestionem appletionem et superflue
fleubotomia et copiosius quia post de appellat
et alias superfluitates evacuare, a de sit coitum
consistentia semina. Et sicut est q̄ ponit Avicenna
dicit si minuitur et tunc dicitur sicut ubi re-
pleto, ne nimis tendit circa quadratas

tuncque tribuende causa constitucionis scriptionem legis
pena sit inserta. 3o ut metu earum humana
coerceatur audacia et ut tuta sit inter
improbos innocentia et in ipsis improbis formidato
supplicio refrenetur audacia et nocendi
facultas. Quomodo constituendi leges sunt
tales sit lex quod contineat honestatem in se quia
lex debet esse honesta iusta possibilis secundum naturam
et consuetudinem patrie tempori et loco conveniens
necessaria utilis et manifesta. Quia ne aliquid per obscu=
ritatem in captione contineat nullo privato
commodo sed pro communi civium utilitate scripta.
iiiia distinctio que incipit assignat inter species
iuris usque ad xviiiam dist. In hac v. dis-
tinctio species iuris naturalis precellere tempore et in hoc
moratur usque ad viiiam dist. et eius digni=
tate et immobilitate. Sed obicitur quod id quod multa
precipiuntur in lege et ewangelio que divini iuris
sunt que hodie non servantur. In lege enim precipie-
batur quod menstruata non ingrederetur templum
quod hodie non servatur. Unde in libro ia. quod autem
fidelis feminas consuetudines detinetur prohiberi in=
gredi ecclesiam non debet quia nec superfluitas
que peccatum est non culpa in culpa reputari non
debet. Et eius quomodo iniustum est in eis
diebus percipere non prohibetur. Si autem ex
veneratione percipere non presumit laudanda
est ut in eadem di. v. ad eius §. de corpo-
ris et in culpas suas agnoscere ubi
culpa non est, quia sepe sine culpa agitur
quod venit ex culpa. Unde cum esurimus sine
culpa comedimus quod ex culpa primi parentis
factum sit ut esuriamus etc. Ostenditur quod ius sit
immobile

Dis. via quod immotum ius stat sed et probat =
via dis. que incipit Denique de superfluitate
nature solo levi occasione meditur. In hac
via dis. agitur de nocturna pollutione
sive illusione et dominus solvit ista que
quia fetebat quod id quod ius nec sit immobile
Dis. vi. quod illusio fiat in probata quod solet
quidem dicitur quod illusio nocturna fit ex ea mors
plenissimo ex gulosorum superfluitate et nec debilitate
ex his duobus mors non imputatur. Aliter
quoque fit ex crapula et ebrietate et quoque
ex precedenti cogitatione. In his duobus modis
et imputatur adeo quod si dormiens genuisset
imaginis suscepit ut imaginatio debet absti=

ne a perceptione eucaristie. Si vero non
contigisset tamen humilius abstineat ut dignitas
diminueat ut dies festus vel summus pro
confessione facta si sit in sacerdos
ia dis. In hac agitur de origine iuris
scilicet quando ius consuetudinis et ius constitutionis incepit
et quod iuris conditores fuerunt. Ius consuetudinis
statim cepit post legem naturale ex quo homines
simul ceperunt habitare. Ius vero constitutionis
cepit a institutionibus quas deus dedit
moysi. Deus sic enim fuit primus. Et moy=
ses gentis primus omnes divinas leges sacris
litteris explicavit. Phoroneus grecis. Mer=
curius egyptiis. Solon atheniensibus.
ligurgus lacedemoniis. Pompilius romanis primo
legem dederunt.
Dis. ia. quando datum vel quando ius incipierunt
iia dis. que incipit Et sequitur quod ius naturale
precellit tam tempore. In hac iia dis.
dicitur quod precellit eius applicatione. Quare
statutum dispensabile quod ius nec non vinculi
non est et hoc probatur dignitate iuris naturalis
unde dicitur in eadem dis. differentia apud plures
illa civitas iniustissime ordinata custoditur
in qua quisque nescit quos affectus singu=
lis reverentiam quorum mores homini sunt fla=
gitiosa per maiorum diversitate sunt vitanda
ut patet per interiorem segetes diverse civitates consue-
tudine vel lege firmatas nulla aut cives aut pe=
regrini libidine violetur. Turpis est enim omnis
pars non congruens universo in totalia quo
mala consuetudo non minus quam perniciosa
perniciosa corruptela est abicienda vel
vitanda quia nisi citius radicitus evellatur
quamvis iuris ab improbis presumitur et in ci=
piunt prevaricationes et varie presumptiones
celerrime non reprimuntur per legibus venerantur
Scripsiamus is. Si solus post audiendum sed non
dominus attendere quod aliquis ante nos facturum
putaverit quod ante omnes secundum Christum sequi fecerit
Dis. hic iia docet quod magnitudine precellit
ius naturale in aliquas species ac dignitate
ixa. dis. In hac agitur quod ius naturale pre=
iudicat legibus imperatorum si eius sit contrarie
et scriptis expositorum ubi preferentur ex quo
plus sequorum ut eadem dist. vel
Dis. ixa. sed quod preit in leges et expositores

episcopo confertur.
Ut maior in effectu baptismus corpus Christi esse
continuum signo maiori carisma misterio
primo igitur videndum est quid sit baptismus et quid ad
eius esse requiritur et qui sint ipsius et quis eius
effectus. Baptismus est ut dicit Hugo de sancto Victore
aqua diluendis criminibus sanctificata per verbum
dei vel sic baptismus est exterior ablutio homi-
nis certa forma verborum ... istud
est notandum quod in omnibus sacris reperitur triplex
scilicet in baptismo ad ... et hoc in ablutione.
In confirmatione ad sanctificationem et hoc in crismatis
unctione quod est signum sanctificationis. In ordine
ad potestatem ministrandi designandam et hoc in tra-
ditione libri vel calicis vel alterius talis. In unctione
et manuum datur potestas ligandi et solvendi
In traditione calicis et prolatione verborum datur
potestas consecrandi. Ad esse vero baptismi re-
quiritur aqua forma verborum et intentio. Notandum
quod hoc sacramentum datur in duabus figuris na-
turis scilicet in aqua et spiritu. quia homo constat ex duobus
scilicet anima et corpore. unde dominus in evangelio nisi
quis renatus fuerit et aqua et spiritu sancto etc. forma
baptismi duplex est vera ... aqua scilicet verbis de
qua dicitur circa verborum non prolata ego te baptizo
in nomine patris et filii et spiritus sancti. hanc declaravit Christus
dixit Ite docete omnes gentes baptizantes eos etc.
est sciendum quod forma non tantum est vocis sed potius
rei et sensus et effectus unde si grecus in lingua
sua vel latinus in sua baptizet baptizatus
est licet diversis verbis aliquid est addendum vel sub-
trahendum et quod ut dicit Innocentius in quarto ... per eo
sciatur quod sint partes quibus sacramentis
certa forma adeo data est ut in baptismo eukaristie
aliquid formam subtrahere vel addere vel interponere

loci declarata potius valent de ... 
quod de unica de quo di. x^a ... Ad formam
sequentem crismatis super caput infusio et
vestis candide et cerei dato ... est
notandum quod baptismus ... si ab adultis voluntas

quo di. iiij quereres. Sciendum est quod si bap-
tizandus ita sit infirmus quod pro dolore non
potest levari vel propter vestimenta quibus
decubuit aqua perfundi vel infans pro te-
neritate non potest tractari saltem si aqua
aspergatur ... si multum aqua vel
per caput cadit sit ipsum. de quo di. iiij nequaquam
est notandum quod necessaria sunt ipsum baptismi scilicet quod
intentio baptizandi et baptizati est ... per specialis

cat cathecumini ubi fides vel martirum
suppleat sine baptismo non salvat
Hii quibus non reiteretur baptisma cum
forma integre constat illata
Aliud est et per bonos et per malos minis-
tros cum baptizat
Nullus autem neque baptisma neque baptizandi
potestate scismatici amittunt
Unde mali non sua potestate sed Christi vo-
luntate baptisma ministrant
Unde an possit baptismus ei qui ficte acce-
ssit non; hereticis ad fidem redeuntibus
non reiteratur sacramentum quod tamen consistunt quod
Ab antiquis hereticis ad ecclesiam venientes accipiunt
denuo reconciliantur autem eum qui invitus
ac manum imponendo ac fidei professione
Item sicut in paradiso et non in fluminibus
quod predictis est felicitas sine baptismo
non etiam reiterato
Unde autem heresis et sacrilegium hereticorum
non sunt sacramenta
Est unita per bonos et malos prestita etc gratia sed
non est aliquid non transit aqua baptismi mali sed divini
Sine hereticis non est baptizatus qui ab heretico baptizatur
Item baptizati a paganis in nomine Christi
Sine pueri sine exorcismis baptizetur
sicut et exsufflationibus non baptizentur
De baptismo officium baptizandi cathecumini predicat
De populi quod tempore cathecumini ad exorci-
zandum sunt deferendi predicandi
Symbolum quod tempore competentibus symbolum est
Cathecismi In unaquaque ecclesia baptizandi
cathechizari possunt
Ante baptizandi ante baptizetur
quibus sunt examinandi
Propterea baptizandi exorcizantur et sufflantur
postea sicut signantur baptizandi in fronte et corde
Postmodum sicut orationes super eum dicantur
Sal tere quod sale initiantur cathecumini
Deinde sicut iterum exorcizentur tangit
postea sicut nares non ora baptizandi
Deinde sicut a sacerdote unguntur

Venit sacerdos quia forte baptismus Christi
pueritia constat
Et non verba erroris per imperitiam prolata
non impediunt aquam sanctitatis. Cum viciosa
prolatio sit ab heretico baptismo prolata baptismum
non viciat non est utilis baptismus cum bono vel
malo afferat et tamen est virtute verborum
Primo igitur forma baptismi que servatur ab apostolis et
eorum successoribus est tradita baptizantur
Pueri aliorum fide et confessione pueri
Egrotantes aliorum testimonio certificatis sed baptizandi
Nichil aliud sacramentum fidei nisi ipsa fides
parvulum facit fidelem
Et per parvulos pueri possunt credere non possunt
ideo valet visio aliorum sicut fidei pro
postea unica et trina mersio in baptismo
Duas de his qui semel non trino baptizantur inguntur
De trina vel obiecte baptizato si semel tamen
vel ter est submersus in aquam mergantur
Multi sunt de his qui in nomine patris et semel tamen
In synodo unitate est in baptismo personas expri-
mere trinitatis cum invicem in aquis sunt
non facit baptismus adultus confitetur duas
personas Christi sine tertia vero baptisma non dicitur
Non heretici non est baptismus qui in nomine patris et filii
et spiritus sancti non est baptizatus
Apostolorum vicarius semel in baptismo nigre liberos
pretulerunt Et caritas non viciat baptismum
Verbum sicut baptizati a sacerdote unguntur
Post sicut baptizandi apud Christum vertice
Emersi quod postquam baptismum a sacerdote dicatur
Accepisti sicut unguentum sed caput baptizati postea
post baptismum sicut candida vestis induitur parvulis
Judei quod mensibus iudei ut cathecumini
Plures Judei post baptismum ad fidem recant
redire cogunt
Primum ante baptismum diabolo et eius operibus ab
renuntiare debemus precessit unctio
Non non transit in nova vita qui non peccatis
Agunt ante baptisma petentem agere debemus
Ut quod XL dierum abstinentia indicis
baptizandis indicitur
Sine gratia prima non est baptismus unita
In cathecismo unitate cogere in baptismo

Facies autem signorum sic distinguuntur unumquodque signum dividitur in tres partes equales et unaquaque pars continet ex 10 gradibus qui vocatur facies et ... Prima facies incipit a primo gradu arietis // prima igitur facies est usque ad 10 gradus arietis et dicitur martis // 2a usque ad 20 gradus eiusdem arietis et dicitur solis quia sol succedit marti in ordine sperarum // 3a facies est a 20 usque ad finem eius et dicitur facies mercurii et sic de ceteris. Hec autem sunt testimonia que planete accipiunt a signis scilicet a fortitudines et debilitates quas planete accipiunt mutua a se met invicem per aspectum, vel quando accipit planeta ab alio fortitudinem vel malam debilitatem. Sunt autem aspectus 4 videlicet oppositionis quartus trinus sextilis. Convenit. Aspectus quidem oppositionis cum fuerit planeta in aliquo signo et alius in signo recto opposito tali. In aspectu dicitur pessimus et maxime si fuerit contrariatum quorundam ut si Venus fuerit in ariete et Saturnus in libra unde signa [illegible] fuerit [illegible] sunt planete unde [illegible] contrarietas

Trinus aspectus dicitur cum duo planete sunt in signis consimilibus et continet inter se tertiam partem firmamenti scilicet 120 gradus et dicitur aspectus optimus quia non est contrarietas in qualitatibus signorum. Unde si fuerint planete concordantes scilicet Iupiter Venus nulla erit contrarietas [illegible] contrarietas nec [illegible]. //

Gratias ago tibi domine mi Ihesu Christe qui tu es deus meus et salvator
meus qui [illegible] hora matutina ductus es [illegible] in [illegible]
ante domum Cayphe [illegible] ubi [illegible] principes et seniores populi
congregati fuerunt et contra te falsa testimonia quesierunt. Et multam [illegible]
mortis instantiam [illegible] non potuerunt quia ora eorum testimonia
non sufficientia erant. Tunc Cayphas quesivit si filius dei vivi esses
et tu filium dei vivi esse [illegible] instantiam mortis
[illegible] et reus est mortis dicentes contra te [illegible]
faciem tuam amabilem et gloriosam velaverunt. Colaphis et alapis
certatim te verberaverunt dicentes: Prophetiza nobis [illegible] quis esset
qui te percussisset [illegible]. Faciem tuam delectabilem
[illegible] sputis [illegible]
[illegible] oculos tuos [illegible] qui tota [illegible]
[illegible] velaverunt [illegible]. Domine rogo te
per velamen oculorum tuorum per [illegible] colaphorum alaparum
et sputorum ut dimittas [illegible]
[illegible] misericordiam [illegible] oculorum tuorum [illegible]
[illegible] Ihesu Christe qui cum patre et filio vivit et regnat
in secula seculorum. Benedictus [illegible]

Suscipe confessionem meam unica spes salutis mee domine deus
meus de gula et ebrietate fornicatione libidine tristitia ira
accidia somnolentia negligentia cupiditate invidia malitia
odio detractione periurio falsitate mendacio vana gloria levitate
superbia avaritia [illegible] et de cogitatione locutione

impium et [illegible] mortuos [illegible] iustifica me
domine deus meus per Ihesum Christum filium tuum [illegible]
qui tecum vivit et regnat deus. Amen.
